Main benefit assistance

Main benefits

Main benefits for working-age (18–64 years) clients include: Jobseeker Support, Sole Parent Support, Supported Living Payment, Youth Payment and Young Parent Payment, Emergency Benefit, Emergency Maintenance Allowance, Jobseeker Support Student Hardship, Widow’s Benefit Overseas, and Sole Parent Support Overseas.

Figure 1a. Number of working-age clients receiving main benefits at the end of the last six June quarters

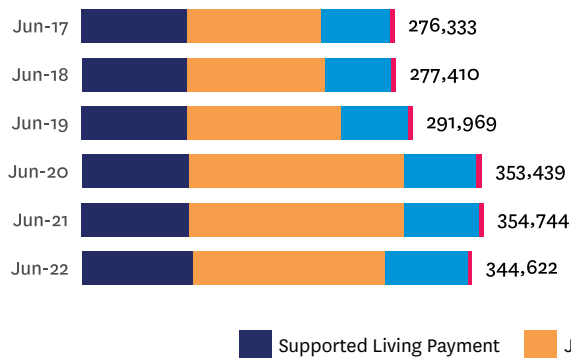

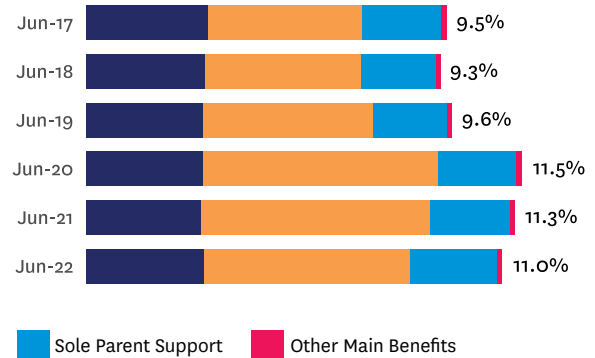

Figure 1b. Proportion of working-age population receiving main benefits at the end of the last six June quarters

344,622 working-age people receiving a main benefit at the end of June 2022.

11.0 percent of the working-age population receiving a main benefit at the end of June 2022.

The number of working-age people receiving a main benefit was **2.9 percent lower** at the end of June 2022, when compared to the end of June 2021. Over the same period, **benefit numbers as a proportion of the working-age population also decreased to 11.0 percent**, from 11.3 percent.

The working-age population is a subset of the estimated New Zealand resident population, defined as those aged 18–64. To calculate population proportions, the working-age population is used, as at the most recent June estimate available.

Jobseeker Support

Figure 2a. Number of working-age people receiving Jobseeker Support by sub category at the end of the last six June quarters

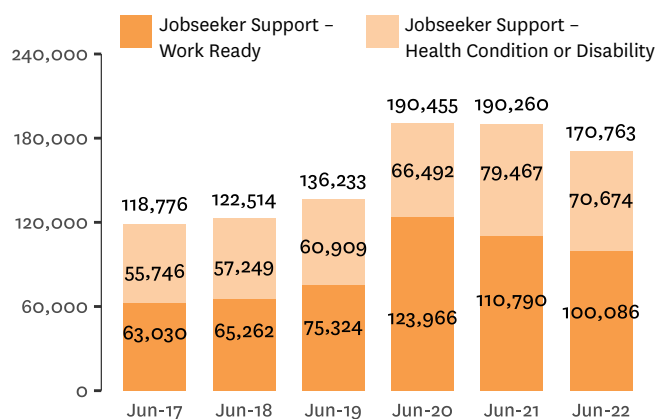

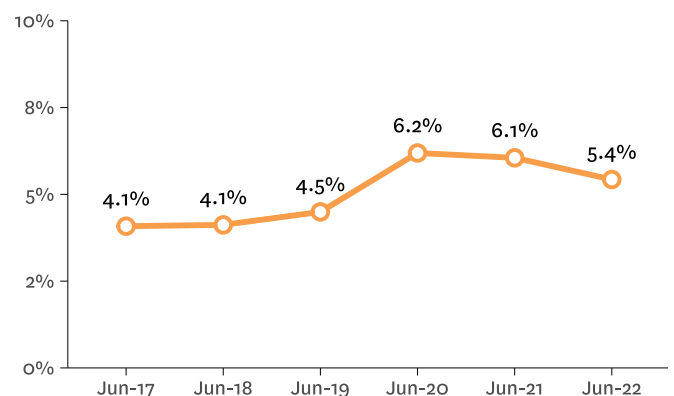

Figure 2b. Proportion of working-age population receiving Jobseeker Support at the end of the last six June quarters

170,763 working-age people receiving Jobseeker Support at the end of June 2022.

5.4 percent of the working-age population receiving Jobseeker Support at the end of June 2022.

At the end of June 2022, **the number of working-age people on Jobseeker Support decreased by 10.2 percent**, when compared to the end of June 2021. Those receiving **Jobseeker Support - Work Ready** decreased by 9.7 percent when comparing the end of June 2022 (100,086) to the end of June 2021 (110,790).

Jobseeker Support is for people who are actively looking for or preparing for work. It includes people with part-time work obligations and those who cannot look for work at the moment (e.g. those with a health condition, injury, or disability).

Sole Parent Support

Figure 3a. Number of working-age people receiving Sole Parent Support at the end of the last six June quarters

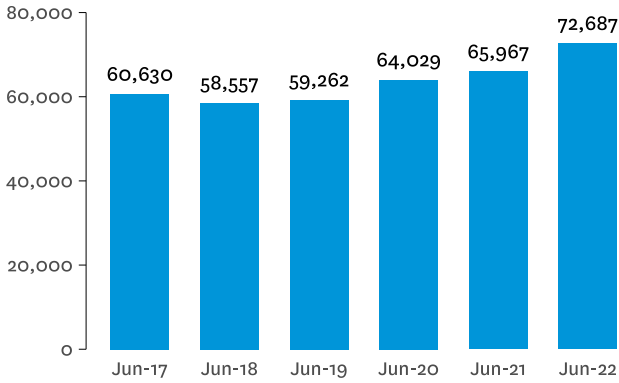

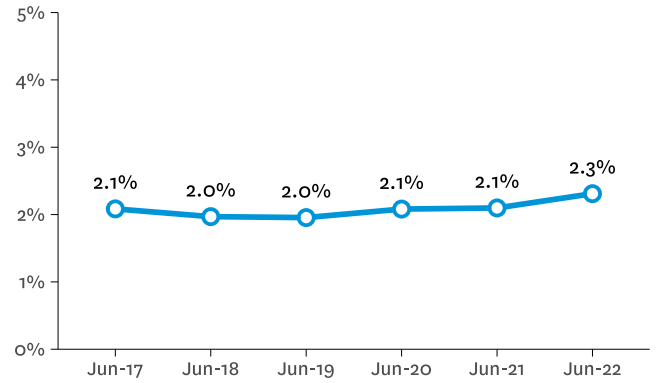

Figure 3b. Proportion of working-age population receiving Sole Parent Support at the end of the last six June quarters

72,687 working-age people receiving Sole Parent Support at the end of June 2022.

At the end of June 2022, the number of working-age people receiving Sole Parent Support was 10.2 percent higher than at the end of June 2021. The proportion of working-age people receiving Sole Parent Support increased to 2.3 percent at the end of June 2022.

2.3 percent of the working-age population receiving Sole Parent Support at the end of June 2022.

Sole Parent Support is for single parents, with at least one dependent child under 14 years.

Supported Living Payment

Figure 4a. Number of working-age people receiving Supported Living Payment at the end of the last six June quarters

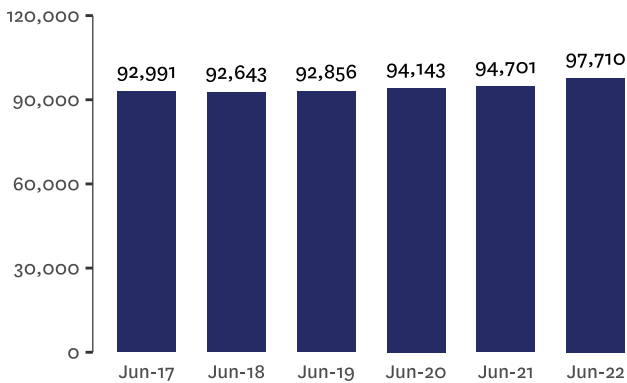

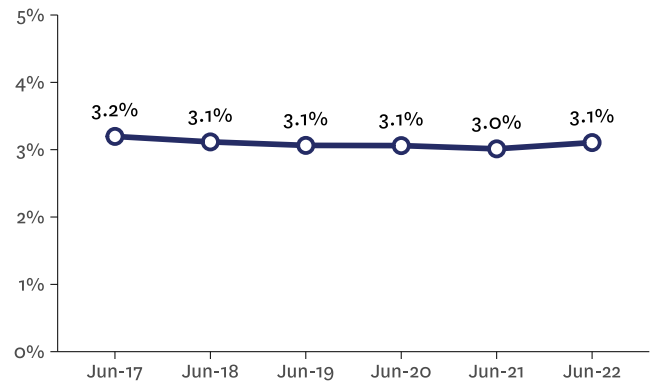

Figure 4b. Proportion of working-age population receiving Supported Living Payment at the end of the last six June quarters

97,710 working-age people receiving Supported Living Payment at the end of June 2022.

At the end of June 2022, the number of working-age people on Supported Living Payment increased by 3.2 percent, when compared to the end of June 2021. The proportion of working-age people receiving Supported Living Payment increased to 3.1 percent at the end of June 2022.

3.1 percent of the working-age population receiving Supported Living Payment at the end of June 2022.

Supported Living Payment is for people who have, or care for someone with, a health condition, injury or disability that limits their ability to work. The long-term nature of conditions for people on Supported Living Payment mean that fewer people transfer to other benefits or move into paid employment, compared to other benefit types.

Regional distribution of Jobseeker Support as a proportion of the working-age population, by Work and Income region, in June 2022

Comparing the end of June 2022 with June 2021, **the proportion of the working-age population* receiving Jobseeker Support decreased in all regions. Northland had the highest proportion receiving Jobseeker Support, at 9.8 percent** at the end of June 2022.

The largest percentage point decreases were in **East Coast (1.1 percent)**, **Taranaki (1.0 percent)**, and **Central and Waikato (both 0.8 percent)**.

Work and Income has 11 geographical regions. An extra category, "Other Region", is used to count people managed by national units, for example contact centres and processing centres.

All percentages have been rounded to the nearest decimal point. As a result, a percentage point change may be displayed as zero.

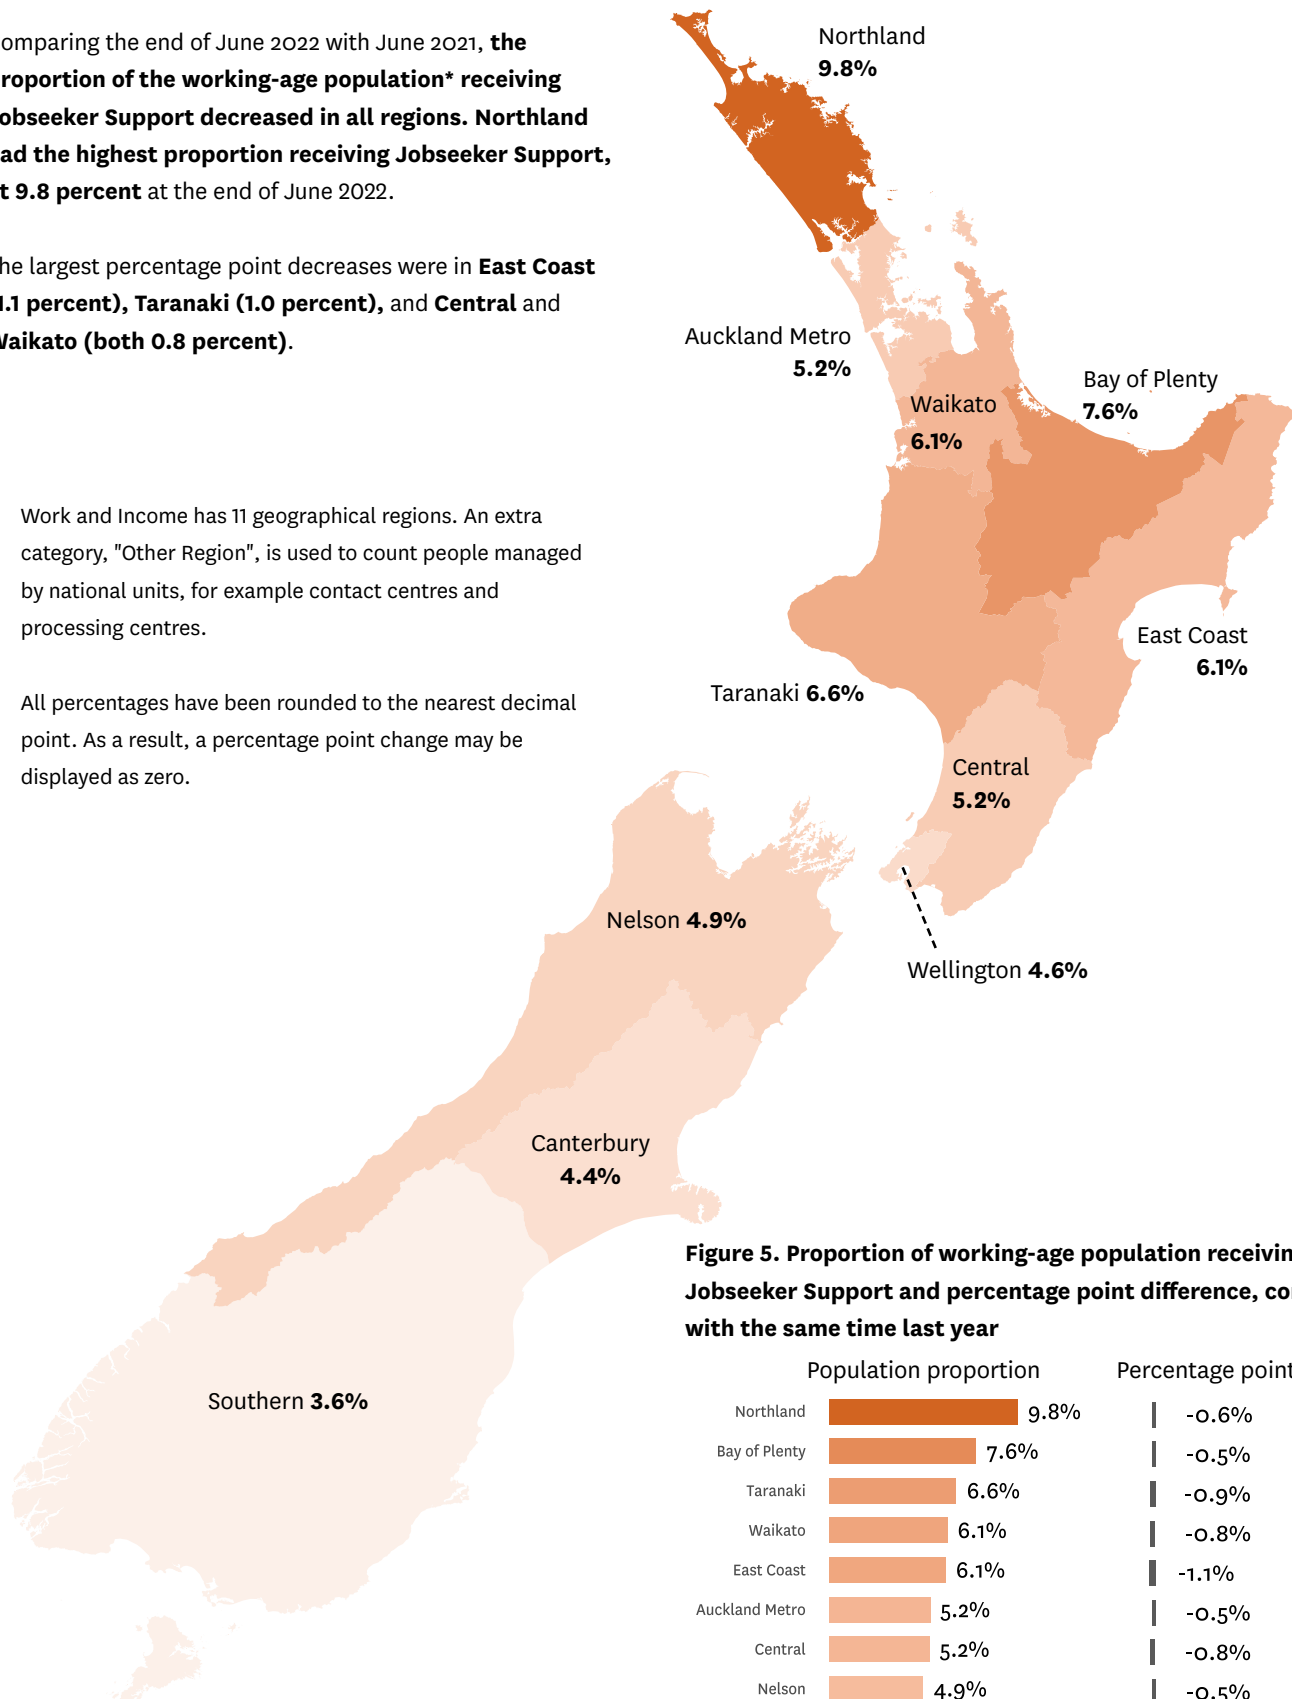

Figure 5. Proportion of working-age population receiving Jobseeker Support and percentage point difference, compared with the same time last year

	Population proportion	Percentage point change
Northland	9.8%	-0.6%
Bay of Plenty	7.6%	-0.5%
Taranaki	6.6%	-0.9%
Waikato	6.1%	-0.8%
East Coast	6.1%	-1.1%
Auckland Metro	5.2%	-0.5%
Central	5.2%	-0.8%
Nelson	4.9%	-0.5%
Wellington	4.6%	-0.7%
Canterbury	4.4%	-0.6%
Southern	3.6%	-0.6%

* The regional estimated working-age population figures used on pages three and four of this report have been calculated using Statistics New Zealand's revised regional population estimates as at June 2021.

Regional distribution of Sole Parent Support as a proportion of the working-age population, by Work and Income region, in June 2022

Comparing the end of June 2022 with June 2021, **the proportion of the working-age population receiving Sole Parent Support increased slightly in all regions. Northland had the highest proportion at 4.2 percent**, at the end of June 2022.

The largest percentage point increases were in **Northland (0.5 percent)**, and **East Coast and Bay of Plenty (both 0.4 percent)**.

Work and Income has 11 geographical regions. An extra category, "Other Region" is used to count people managed by national units, for example contact centres and processing centres.

All percentages have been rounded to the nearest decimal point. As a result, a percentage point change may be displayed as zero.

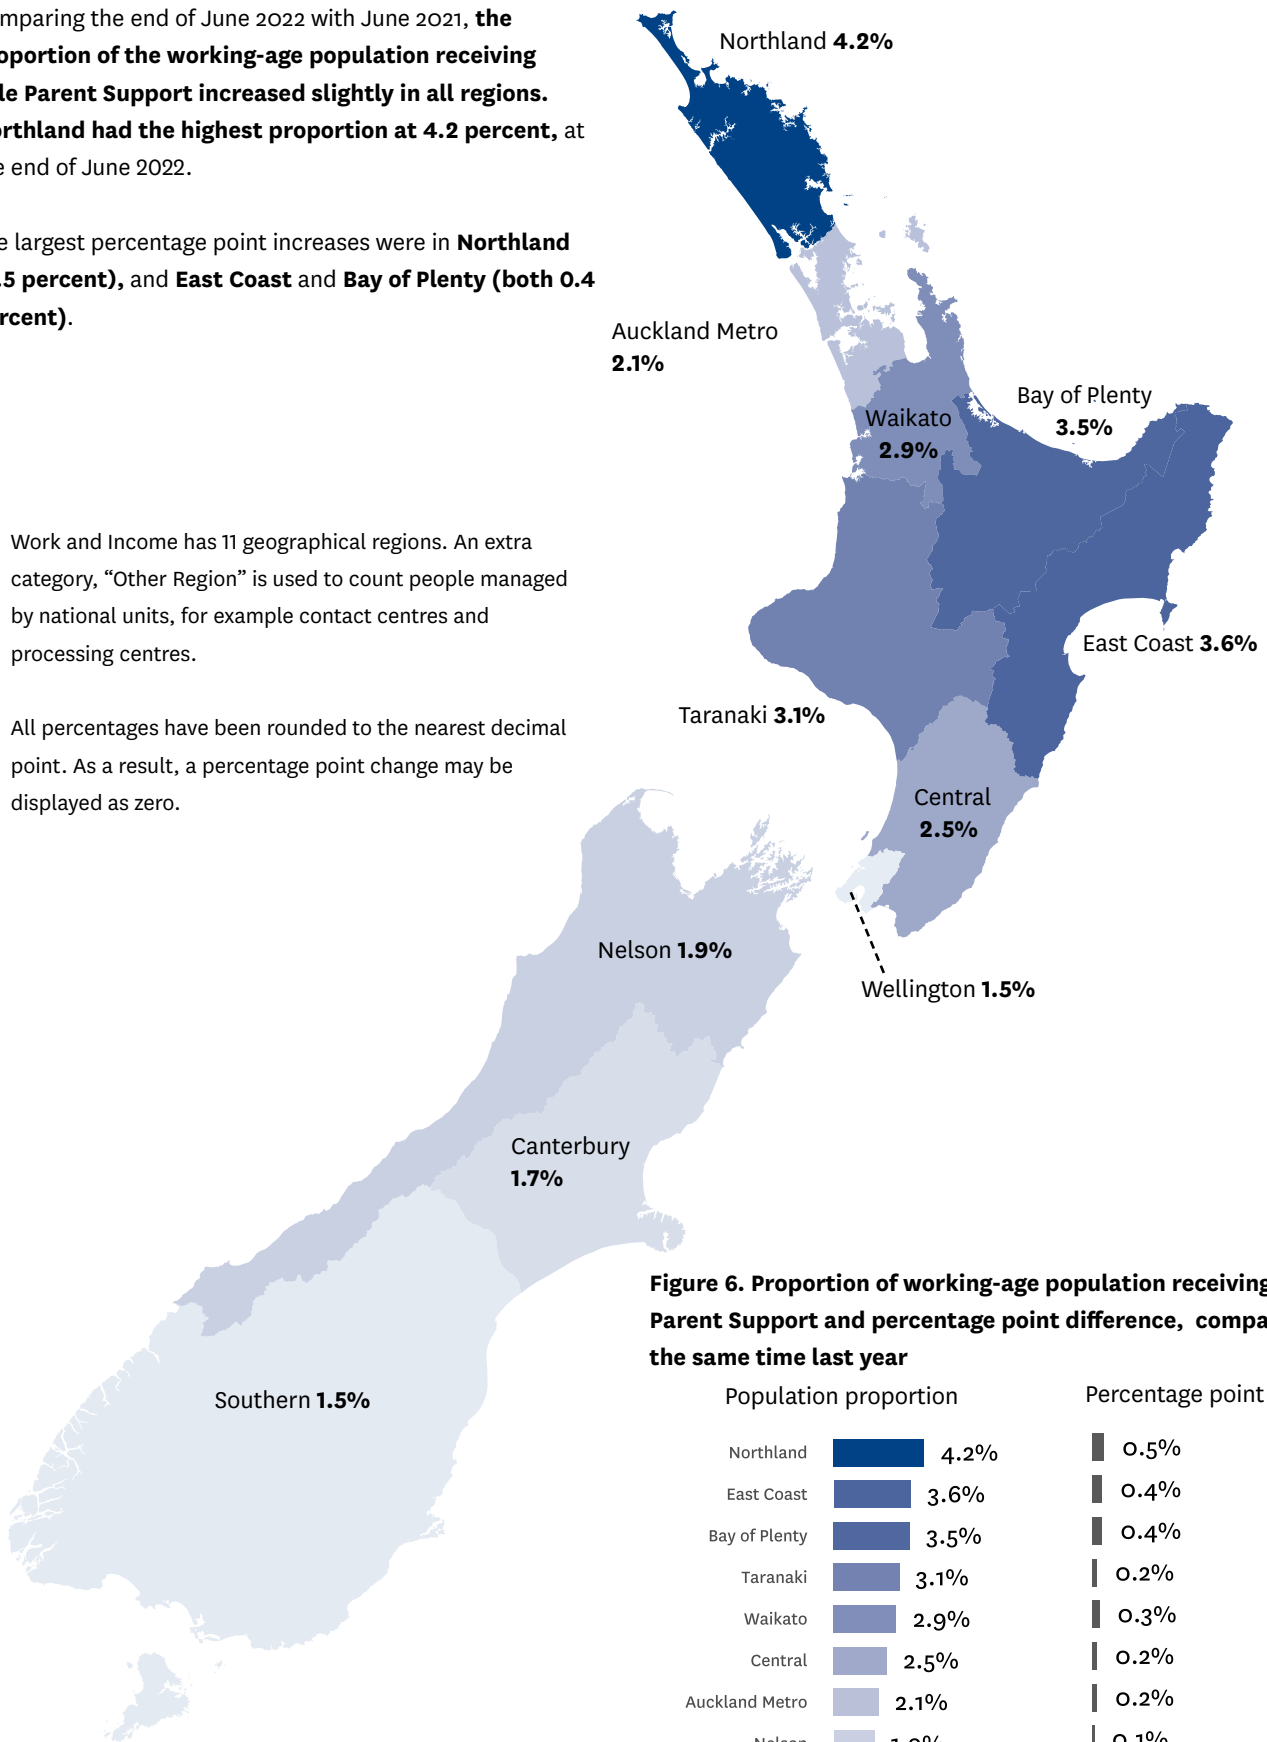

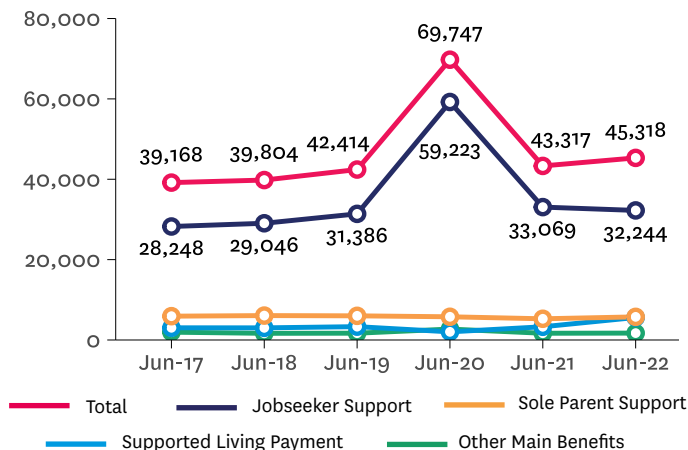

Figure 6. Proportion of working-age population receiving Sole Parent Support and percentage point difference, compared with the same time last year

Region	Population proportion (%)	Percentage point change
Northland	4.2%	0.5%
East Coast	3.6%	0.4%
Bay of Plenty	3.5%	0.4%
Taranaki	3.1%	0.2%
Waikato	2.9%	0.3%
Central	2.5%	0.2%
Auckland Metro	2.1%	0.2%
Nelson	1.9%	0.1%
Canterbury	1.7%	0.1%
Southern	1.5%	0.1%
Wellington	1.5%	0.1%

Benefit grants and cancellations

Benefit grants

Figure 7. Number of benefits granted during the last six June quarters

The total number of benefits granted during the June 2022 quarter decreased by 2,001, or 4.6 percent, when compared with the June 2021 quarter.

There were 32,244 benefit grants for Jobseeker Support during the June 2022 quarter, a decrease of 825, or 2.5 percent, when compared with the June 2021 quarter.

A benefit grant is the formal acceptance of entitlement to a benefit. The numbers reported here are for the total number of main benefits granted during the June quarter (i.e. 1 April to 30 June), for the last six June quarters.

Benefit cancellations

Figure 8a. Number of cancellations by benefit during the last six June quarters

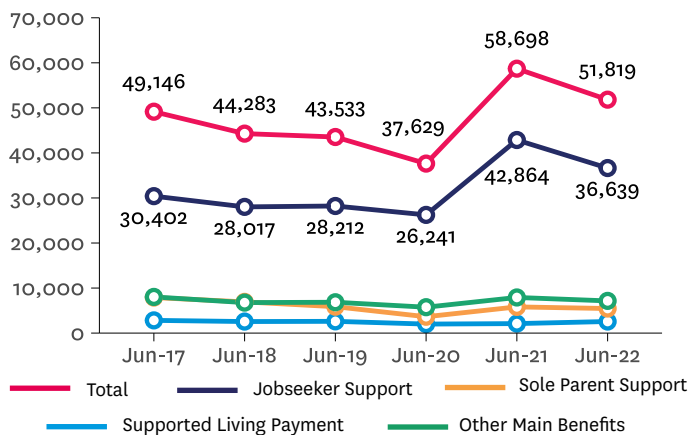

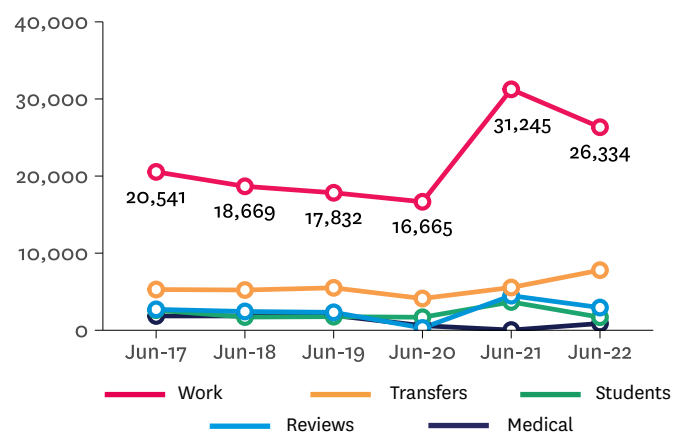

Figure 8b. Number of cancellations by selected reason during the last six June quarters

51,819 benefit cancellations during the June 2022 quarter.

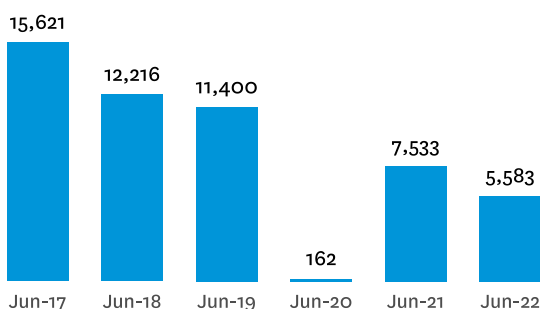

26,334 benefit cancellations during the June 2022 quarter due to obtaining work.

The number of benefit cancellations during the June 2022 quarter decreased by 6,879 when compared to the June 2021 quarter, or a decrease of 11.7 percent. **Obtaining work, a main reason for benefit cancellations, decreased by 15.7 percent** when compared to the June 2021 quarter.

A cancellation (cancel) is the formal process that ends the entitlement to a benefit. The numbers reported above are for benefits cancelled within the June quarter (i.e. 1 April to 30 June), for the last six June quarters.

Benefit sanctions

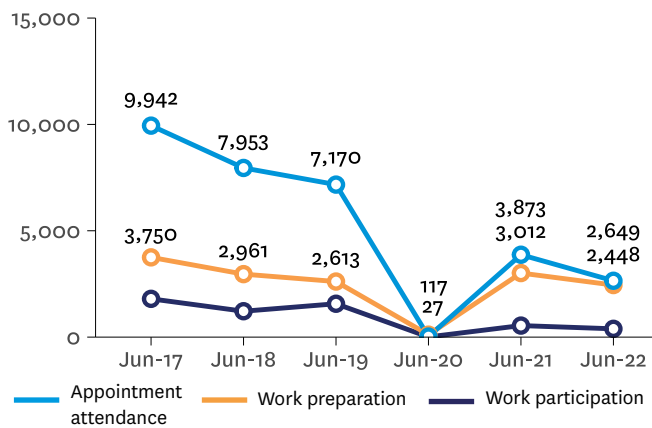

Figure 9. Number of sanctions for unfulfilled work obligations during the last six June quarters

The number of sanctions issued during the June 2022 quarter was 5,583. Between 23 March and 27 May 2020, work-related obligation failures were suspended. They restarted back in late June 2020, which is why the number of sanctions in the June 2020 quarter was lower than other quarters.

A sanction is a reduction in a person's benefit that may occur if they do not fulfil their work obligations. Sanctions can affect benefit recipients in a number of ways, depending on their circumstances and the number of times they have had a sanction over the last 12 months. There are three types of sanctions: graduated (i.e. percentage reduction in benefit amount), suspended, or cancelled.

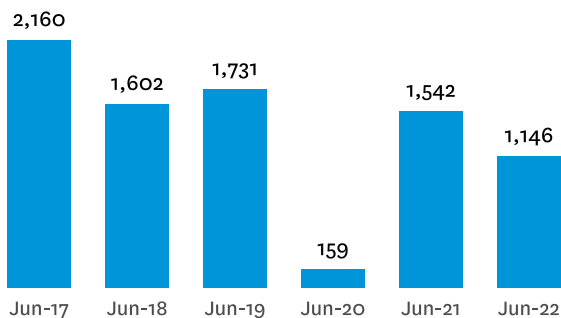

Figure 10. Number of sanctions for unfulfilled work obligations by reason, during the last six June quarters

During the June 2022 quarter, the main reasons for unfulfilled work obligation sanctions were clients **not attending appointments** (including seminar appointments) and **failing to prepare for work**, with 2,649 and 2,448 sanctions, respectively.

The maximum main benefit reduction for sole parents and couples with dependent children is 50 percent, when sanctioned within a 12-month period. For people without a de facto partner or couples with no dependent children, the first sanction is a maximum 50 percent reduction of their main benefit; for a second non-fulfilment of an obligation, they face a 100 percent suspension of their main benefit; and a third sanction will then result in a cancellation of their benefit.

Figure 11. Number of graduated sanctions active at the end of the last six June quarters

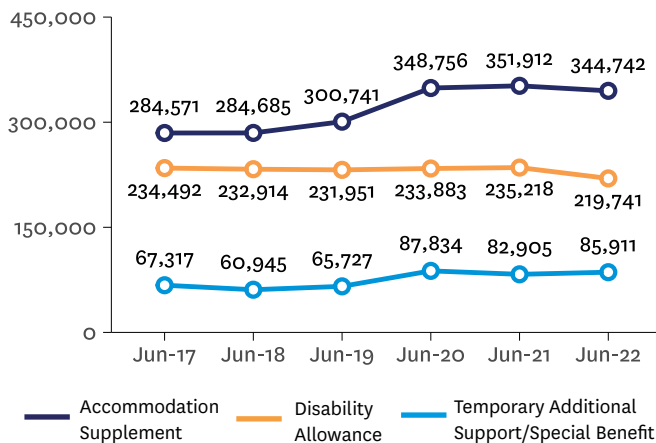

At the end of June 2022, **there were 1,146 graduated sanctions actively in place** (i.e. when a client has a percentage reduction in their weekly benefit rate).

Not everyone who does not fulfil their obligations gets sanctioned. If benefit recipients re-comply or provide additional information, the sanction can be overturned.

Supplementary assistance

Figure 12. Number of recipients of supplementary assistance at the end of the last six June quarters

The number of people receiving **Accommodation Supplement** at the end of June 2022 **decreased by 7,170** when compared to June 2021.

The number of people receiving **Temporary Additional Support/Special Benefit** at the end of June 2022 **increased by 3,006** when compared to June 2021.

The number of people receiving **Disability Allowance** at the end of June 2022 **decreased by 15,477** when compared to June 2021.

The Accommodation Supplement is a weekly payment to assist people on low incomes with their rent, board, or the cost of owning a home, but is not available to those in public housing or charged Income-Related Rent. The number of people receiving an Accommodation Supplement tends to change in line with main benefit numbers.

The Disability Allowance is a weekly payment to assist people who have on-going costs because of a disability. A person does not need to be receiving a main benefit in order to qualify for the Disability Allowance. The number of people receiving a Disability Allowance tends to change in line with main benefit and New Zealand Superannuation numbers.

The Temporary Additional Support is a weekly payment that helps people to cover essential living costs that cannot be met from their income or other resources. A person does not have to be receiving a main benefit to qualify for Temporary Additional Support. Temporary Additional Support replaced Special Benefit in 2006, however some people are still entitled to receive Special Benefit, therefore these are counted together.

Hardship assistance

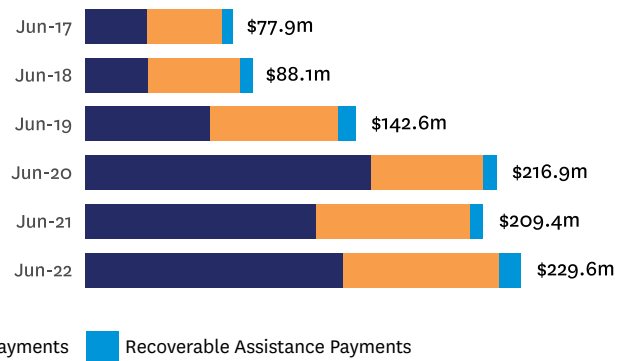

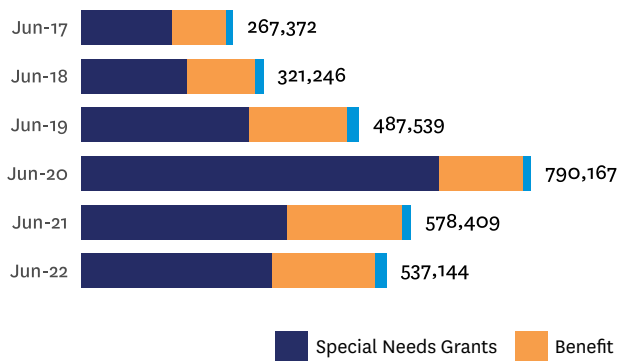

A total of **537,144 hardship assistance payments, worth \$229,643,616** were provided during the June 2022 quarter. Compared with the June 2021 quarter, the number of hardship assistance payments was 7.1 percent lower but the value of hardship payments was 9.7 percent higher.

Hardship assistance includes, but is not limited to: Special Needs Grants, Benefit Advances, and Recoverable Assistance Payments. These forms of assistance are designed to help people who have immediate needs. The numbers reported for hardship assistance are those provided within the June quarter (i.e. 1 April to 30 June). Hardship assistance data is not limited to the working-age population (i.e. 18–64 years).

Total hardship assistance

Figure 13a. Number of hardship payments provided during the last six June quarters, by type of assistance

Figure 13b. Value of hardship payments provided during the last six June quarters, by type of assistance

Special Needs Grants Benefit Advance Payments Recoverable Assistance Payments

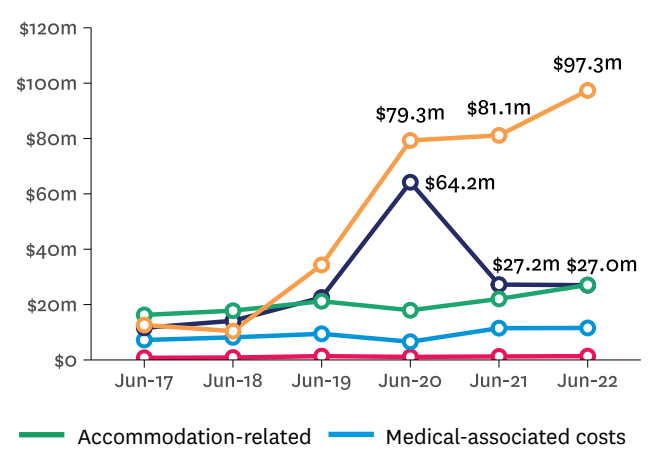

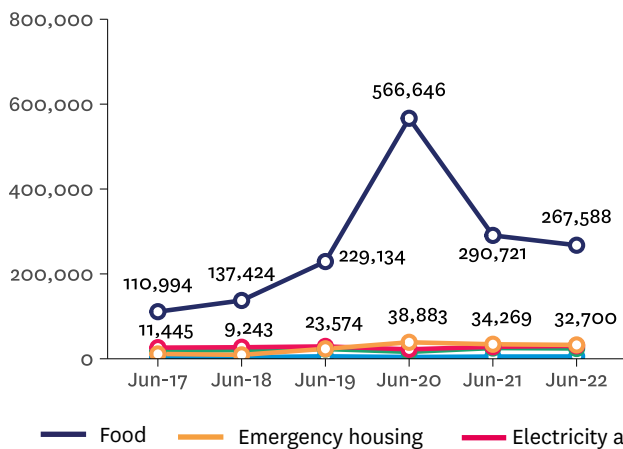

537,144 hardship payments provided during the June 2022 quarter.

\$229,643,616 is the value of hardship payments provided during the June 2022 quarter.

Reasons for providing hardship assistance

Figure 14a. Number of hardship payments provided during the last six June quarters, by selected reason

Figure 14b. Value of hardship payments provided during the last six June quarters, by selected reason

Food Emergency housing Electricity and gas Accommodation-related Medical-associated costs

The number of Special Needs Grants for food decreased since the June 2021 quarter. There were 23,133 fewer Special Needs Grants for food provided, totalling 267,588 during the June 2022 quarter. The value of Special Needs Grants for food provided decreased by 0.8 percent to \$27,008,393 during the June 2022 quarter.

The number of Emergency Housing Special Needs Grants during the June 2022 quarter decreased when compared with the same period last year. There were 1,569 fewer Emergency Housing Special Needs Grants provided, totalling 32,700 during the June 2022 quarter.

Special Needs Grants

Figure 15a. Number of Special Needs Grants provided during the last six June quarters

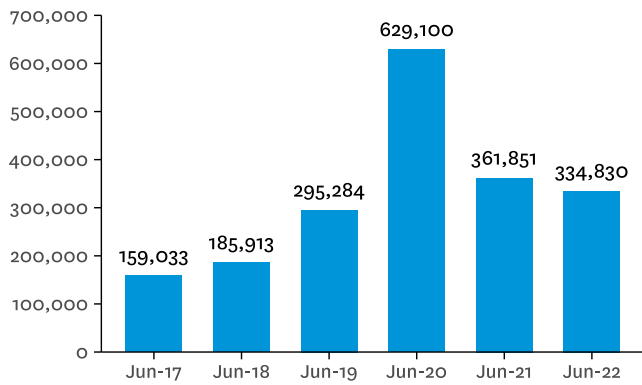

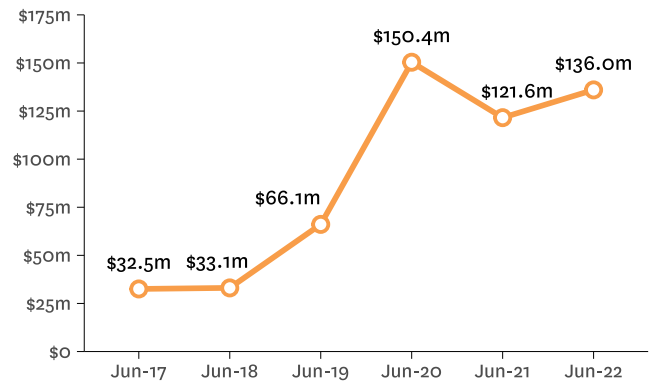

Figure 15b. Value of Special Needs Grants provided during the last six June quarters

334,830 Special Needs Grants provided during the June 2022 quarter.

\$136,000,260 is the value of Special Needs Grants provided in the June 2022 quarter.

The number of Special Needs Grants provided was 27,021 fewer during the June 2022 quarter when compared to the same period in 2021. The value of grants provided increased from \$121,568,553 during the June 2021 quarter to \$136,000,260 during the June 2022 quarter.

A Special Needs Grant provides a non-taxable, one-off recoverable or non-recoverable payment to help people meet immediate needs. A person does not need to be receiving a main benefit to be eligible for a Special Needs Grant.

Benefit Advances

Figure 16a. Number of Benefit Advances provided during the last six June quarters

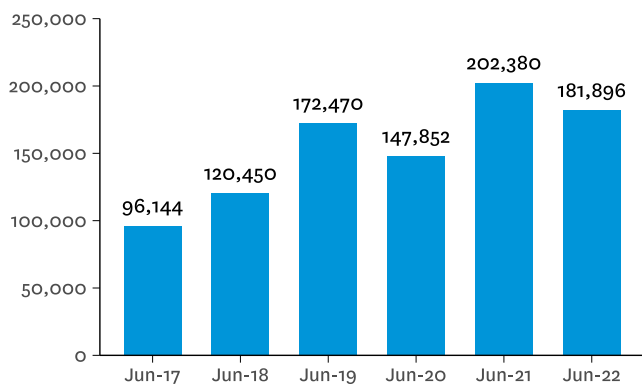

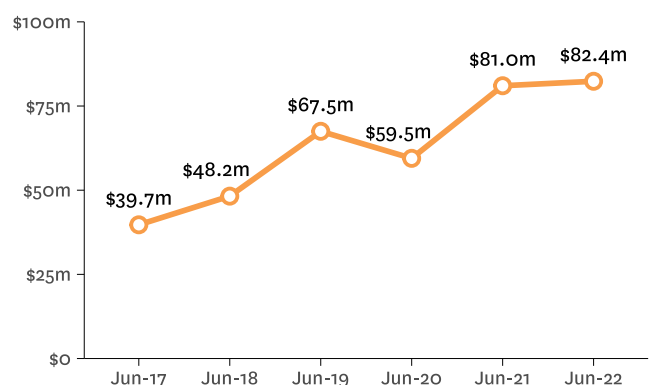

Figure 16b. Value of Benefit Advances provided during the last six June quarters

181,896 Benefit Advances provided during the June 2022 quarter.

\$82,351,507 is the value of Benefit Advances provided during the June 2022 quarter.

The number of Benefit Advances provided was 20,484 fewer during the June 2022 quarter, compared with the June 2021 quarter. However, the value of Benefit Advances provided increased by 1.6 percent to a total of \$82,351,507.

Anyone receiving a main benefit who requires assistance to meet an immediate essential need can have access to a Benefit Advance. The advance can be up to six weeks of their net entitlement, and is recovered from subsequent payments of benefit. People not receiving a main benefit may be eligible for Recoverable Assistance Payments instead.
